A ceiling light without bulbs? The Ohyama Lights LED 12" Ceiling Light requires no maintenance and is a great solution for hotels, multi-unit dwellings, and homes. Equivalent to fixtures requiring (2) 60 watt incandescent lamps, the LED 12" Ceiling Light only uses 17 watts of power and is ENERGY STAR rated. A multi-unit facility will certainly decrease its electricity bill and labor costs of replacing bulbs. Also, installation is fairly easy. To install, simply remove the lens, mount the unit, and connect the wires. The unit dims utilizing TRIAC dimming systems and is rated for 50,000 life hours and covered by a 5 year warranty.
